INDEX TO MECHANICAL ENGINEERING

Volume 55, January-December, 1933

(BR) denotes Book Review, (C) Correspondence, (Ed) Editorial

ABBOTT, E. J.
Why use soundmeters? Advantages and limitations of these instruments 281

ABBOTT, E. J., AND FIRESTONE, F. A.
Specifying surface quality—a method based on accurate measurement and comparison 569

ABBREVIATIONS
Standard, for scientific and engineering terms 138

ABRASION
Cast iron, increasing resistance of 182

ACRES, W. P., AND DECKER, J.
Significance of speed standardization 246

ADAMS, E. E.
Light-weight, high-speed passenger trains 735

ADAMS, J. Q.
Management essentials for recovery (C). 264

AERODYNAMICS
Hydrodynamics and (BR) 141

AERONAUTICS
See also Aerodynamics; Airplanes
Besler system of steam power for aircraft. 630
Cierva Autogiro, latest type of 440
Control, lateral, in birds and airplanes... 440
Cyclogiro rotating-wing system 694
Engine indicator, high-speed 169
Experiments with servo rudders 630
Flight of birds (Ed) 439
Gasoline engines 694
Langley Field conference 421
Loss of *Akron* and sealing Mt. Everest (Ed) 307
Paddle-wheel airfoil system 376
Research and general engineering, relation of 376
Spinning of airplanes 630
Stipa tubular airplane 631
Strandgren rotors 694

AGRICULTURE
Alcohol manufacture, products usable for. 285

AIR COMPRESSORS
Free-piston engine compressor 43

AIR CONDITIONING
Conference of San Francisco Section 272

AIR FLOW
See Flow of Air

AIR MACHINERY
Air-compressor test-bed equipment 308
Principles of the air injector 762
Propeller fans, performance of 441

AIRPLANE ENGINES
Indicator, high-speed 169
Pescara auto-compressor 308
Pobjoy engine, the 80-hp 185
Supercharged single-cylinder unit, experiments with 122

AIRPLANES
Communications revolution, 1760–1933.. 531
Lindbergh's "Spirit of St. Louis" (view).. 110
Problems in fast air-transport design 611

ALBION, ROBERT GREENHALGH
The communication revolution, 1760–1933 531

ALDEN, VERN E.
Steam and power supply 667

ALFORD, L. P.
Appraisal of economic forces 345
Lasting prosperity (BR) 521
Social integration (technosynthesis) (BR) 589

ALLOYS
Beryllium, properties and uses 44
Oil-permeable 576

AMERICAN ENGINEERING COUNCIL
Business instability, analysis of causes of 211, 295
Economic balance, report on (Ed) 575
Economic balance report, review of..345, 549
Social Trends Committee 235
Work of, reports, and recommendations 207, 463

AMERICAN SOCIETY OF MECHANICAL ENGINEERS
Boiler Code Committee. See Boiler Code Committee, Work of
Boiler Construction Code. See Boiler Code
Candidates for membership, list of.. 144, 208, 272, 335, 391, 464, 527, 592, 656, 711, 784
Executive Committee, actions taken by.. ..... 711, 782

AMERICAN SOCIETY OF MECHANICAL ENGINEERS (*continued*)
Lauer, Conrad N., presidential address of. 3
Medal awards, nominations for 391
Meeting, annual, 1932, account of 35
Meeting, annual 1933, plans for 712
Meeting, annual 1933, program for 713
Meeting, semi-annual 1933, account of... 481
Meeting, semi-annual 1933, papers and discussion on condenser-tube corrosion. 556
Meeting, semi-annual 1933, papers of Railroad Division 539
Meeting, semi-annual 1933, papers, résumé of 486
Meeting, semi-annual 1933, program for. 393
Meetings of Local Sections 208, 272
Metropolitan Section, Junior Division organized 711
Officers, election for 1933–1934 710
Officers, nominating committee, requests of 144
Officers, nominations for 1933–1934 523
Papers, professional economic aspects of (Ed) 40
Policies and Budget Committee (Ed)... 574
Power Test Codes. See Power Test Codes
Student Branch membership (Ed) 374
Students (980) apply for Junior membership (Ed) 306
Transactions papers, synopses of 55, 133, 193, 319, 439, 451, 587, 643, 775

AMERICAN STANDARDS ASSOCIATION
Cast-iron soil pipe and fittings standardized 784
Safety code for elevators 201
Transfer to, of five Bureau of Standards sections (Ed) 574
Twist drill list of sizes simplified 784

AMES, ADELBERT, JR.
Plan for business stabilization 295

ANALYSIS
Causes of business instability 211, 295
How do you think? 279

APPLETON, A. L.
Business stabilization, plan for 295

APPLIED MECHANICS
Atomization of liquid jets 310
Dubring's rule, method of interpolating data based on 310
Gases and liquids, spiral flow of 442
Screw threads, friction of 309
Turbulence, developments in study of 252
Turbulent motion, behavior of fluids in.. 695
Vibrations by solid carbon dioxide, production of 504
What is weight? 504

ARMS, JOHN H. R.
Engineer or clerk? (C) 518

ATOMS
Disintegration of, Cockcroft and Walton's apparatus for (view) 79
Structure, modern view of 76
Van de Graaff's apparatus for shattering (sketch) 77

AUTOMOBILES
See also Motor Cars
Communications revolution, 1760–1933.. 531
Costs, distribution of 384
Tires, super-balloon 48
Traffic on roads, retarding of (Ed) 251

AUTOMOTIVE FUELS
See Gasoline

AVIATION
Transatlantic flying routes 107
Transatlantic, relation of weather to 105

B

BAILEY, E. G.
A century of progress in fuel technology (C) 646

BAILEY, NEIL P.
Solid-friction damping (C) 135

BAKER, RAY PALMER
Technical curricula and liberal education. 23

BANKS AND BANKING
Federal Reserve, New York, views of 17
Fundamental principles governing safe loaning of money 21

BANKS AND BANKING (*continued*)
Group banking 21
Interdependence of banks 17
Operations not related to economic and social forces 147
Statement of condition of banks, analysis of 19
Statement of condition of banks, typical. 20
Trend toward fewer and larger banks 22

BARBA, C. E.
Future design of passenger equipment ... 157

BATT, WILLIAM L.
Nominated as A.S.M.E. officer (biog.) 524

BAUSCH, CARL L.
Management essentials for recovery (C) 264

BEARD, CHARLES A.
Plan for business stabilization 295

BEARD, WILLIAM
An engineering approach to government. 467

BEARINGS
Surfacing specifications 569

BENDER, R. J.
A century of progress in fuel technology (C) 647

BENOIT, A. W.
Depreciation of textile machinery 732

BERLE, ADOLF A., JR, AND MEANS, GARDINER C.
The modern corporation and private property (BR) 545

BERYLLIUM
Production and uses 44

BIGELOW, CARLE M.
Development of American industries (BR) 66

BILLETER, J.
Public works and recovery (C) 65
The human side of smoke abatement (C). 650

BILLMYER, CARROLL D.
Training the engineer to think (C) 457

BITTER, FRANCIS
Magnetism and the structure of metals.. 287

BLOOMFIELD, J. J.
Dust in industry, the sampling and analysis of industrial dusts 229

BOILER CODE
Boiler Construction Code, Revisions and Addenda to 59, 202, 267, 327, 386, 453

BOILER CODE COMMITTEE, WORK OF
Interpretation of cases 59, 140, 201, 266, 328, 453, 518, 708

BOILER FEEDWATER
Removal of oil from 128
Research on 138
Solubility of calcium salts between 182 C and 316 C 49

BOILER FURNACES
Tests of refractories 183

BOILERS
Benson land and marine boiler 50
Hand firing (drawing) 340
Loffler boilers at Trebovice 641
Mercury systems, heat transfer in 748
Thomson, Elihu, flash boiler (view) 227
Velox boiler, working cycle of 641
Water tube, in cargo ship 312
Zoelly high-performance 50

BOOKS RECEIVED 67, 142, 269, 331, 460, 522, 590, 653, 709, 790

BOOKS REVIEWED
A study of the movement since the Civil War. By Marion Cotter Cahill 459
Alloys of iron and molybdenum. By J. L. Gregg 521
American Year Book—a record of events and progress for the year 1932. Edited by Albert Bushnell Hart and William M. Schuyler 460
An outline of technocracy. By Wayne W. Parrish 203
Automotive engines. By P. M. Heldt .. 779
Business under the recovery act. By Lawrence Valenstein and E. B. Weiss. 620
Can business govern itself? By Edgar L. Heermance 619
Common sense applied to motion and time study. By Allan H. Mogensen... 652
Development of American industries. By John G. Glover and William B. Cornell. 66

882172

BOOKS REVIEWED (*continued*)
Early years of modern civil engineering. By Richard S. Kirby and Philip G. Laurson ... 521
Engineering: a career—a culture. By the Education Research Committee, the Engineering Foundation ... 206, 330
Engineering shop practise. By Prof. O. W. Boston ... 519
Engineers and the price system. By Thorstein Veblen ... 204
Faraday and his metallurgical researches. By Sir Robert A. Hadfield ... 66
Forest land use in Wisconsin. Report of Committee on Land Use and Forestry ... 269
Handbook of industrial temperature and humidity measurement and control. By M. F. Behar ... 329
Heat transmission. By William H. McAdams ... 390
Hydro- und aerodynamik (Handbuch der Experimental-physik, vol. IV), edited by Prof. L. Schiller ... 141
Industrial discipline and the governmental arts. By Rexford G. Tugwell ... 620
Industrial engineering and management. By Ralph M. Barnes ... 589
Industrial management in this machine age. By Francis A. Westbrook ... 590
Industrial psychology in practise. By Henry J. Welch and George H. Miles ... 459
Internal-combustion engine. By D. R. Pye ... 67
Introduction to railway mechanics. By George V. Lomonossoff ... 779
Introduction to technocracy. By Howard Scott and others ... 204
Labor, relations under the recovery act. By Ordway Tead and Henry C. Metcalf ... 619
Lasting prosperity. By A. G. McGregor. 521
Life in a technocracy. By Harold Loeb ... 205
Man's rough road. By A. G. Keller ... 206
National industrial recovery act: an analysis. By Benjamin S. Kirsh, in collaboration with Harold Roland Shapiro ... 618
Plywood: its production, use, and properties. By Alexander Mora ... 329
Principles of wood working. By Forest Products Research Laboratory ... 329
Problems in human engineering. By F. Alexander Magoun ... 141
Social integration (technosynthesis). By Victor A. Endersby ... 589
Stop that smoke! By Henry Obermeyer. 652
Technische Kulturdenkmale. By Conrad Matschoss and Werner Lindner ... 67
Technocracy, an interpretation. By Stuart Chase ... 205
Technocratic literature, review of ... 203
Ten years of industrial psychology. By Henry J. Welch and Charles S. Myers. 458
Trade association's part in coordinate planning. By E. L. Heermance ... 619
Twenty-five years of chemical engineering progress, 1908–1933. Edited by Sidney D. Kirkpatrick ... 709
Vibration prevention in engineering. By A. L. Kimball ... 520
What is technocracy? By Allen Raymond ... 203

BUILDINGS
Lighting with heliostats ... 131

BUMGARDNER, H. E.
Smoke-density scales (C) ... 200

BUSINESS
See Economics

C

CALCIUM SALTS
Solubility of sulphate and carbonate at temperatures between 182 C and 316 C. 49

CAMMEN, LEON
Alcohol-gasoline mixtures as motor fuels. 285
American Year Book (BR) ... 460

CANAL
Morris Canal, failure of (Ed) ... 760

CAR WHEELS
Chilled-iron, data of, use of (C) ... 135

CARDULLO, FORREST E.
The case for planing ... 677

CAST IRON
Characteristics in tests, outstanding ... 253
Melting, pulverized-coal rotary furnaces for ... 45
Specimen size in tests, effect of ... 253
Wear resistance, method of increasing the. 182

CASTINGS
Reclaiming leaky product ... 184

CEMENT
Heat developed while setting and hardening ... 44
CEMENT (*continued*)
Krupp tube mill for grinding ... 130

CENTRAL STATIONS
Michigan City, Ind ... 128
Operating results at seaboard plant ... 129

CHARTS
Break-even, limitations of ... 493

CHICAGO EXPOSITION
See American Society of Mechanical Engineers
A Century of Progress ... 334
A Century of Progress (Ed) ... 375
A Century of Progress—what next? ... 478
Engineers' Day ... 208
Engineering Week ... 271, 392
Engineering Week, plans for ... 334
Map of grounds ... 400

CHIMNEYS
See Smokestacks

CHRISTIE, A. G.
Surplus power, use of (C) ... 198

CHRISTY, WILLIAM G.
A century of progress in fuel technology (C) ... 647
Human side of smoke abatement ... 347
Human side of smoke abatement (C) ... 651
Stop that smoke! (BR) ... 652

CLARK, J. M., SMITH, J. RUSSELL, SMITH EDWIN S., AND SOULE, GEORGE
Plan for business stabilization ... 296

CLARK, WALLACE
Management essentials for recovery (C). 264

COAL
See also Pulverized Coal

CODES
See Boiler Code; Boiler Code Committee, Work of
See also Power Test Codes
A.P.I.–A.S.M.E. unfired pressure-vessel ... 592

COLLEGES
Sheffield Scientific School, view of Sterling Tower ... 94

COMPRESSOR
Rotary-piston wet type (diagram) ... 445

COMPTON, KARL T.
A Century of Progress—what next? ... 478
Elihu Thomson: some of his mechanical inventions ... 225

COMSTOCK, CHARLES W.
Training the engineer to think (C) ... 388

CONCRETE
Electrical insulation of ... 576

CONDENSER TUBES
Drop versus film formation ... 751

CONDENSERS
Drip condensation (C) ... 651
Drip form of condensation ... 410

CONSTRUCTION LEAGUE
Code for engineers (Ed) ... 628

CORLISS, GEORGE H.
Portrait of ... 402

CORRESPONDENCE
Letters from readers ... 61, 135, 197, 263, 323, 387, 454, 516, 645, 706, 778

COSMIC RAYS
Attack upon nuclear physics ... 79

COYLE, DAVID CUSHMAN
New construction can restore prosperity. 111

CRAVER, HARRISON W.
Monuments of early engineering (BR) ... 67

CURRENT MECHANICAL ENGINEERING LITERATURE
Selected items from the Engineering Index 69

D

DALLAVALLE, J. M.
Control of industrial dust ... 621

DANEKIND, A. C.
Planing versus milling ... 673

DAVISON, G. C.
World petroleum combine (C) ... 516

DEALE, ROBERT COREY
Correlation of metal-cutting data ... 625

DE BAUFRE, WILLIAM L.
Heat transmission (BR) ... 390

DECKER, J., AND ACRES, W. P.
Significance of speed standardization ... 246

DE LEEUW, A. L.
Engineering shop practise (BR) ... 519

DEN HARTOG, J. P.
Solid-friction damping (C) ... 135

DEPRESSION
See Economics

DEXTER, GREGORY M.
Engineer's view of investment banking reforms ... 275, 352

DICKINSON, H. C.
Credit control vs. overinvestment (C) ... 136
Plan for business stabilization ... 297

DICKSON, WILLIAM B.
Plan for business stabilization ... 297

DIEDERICHS, H.
Handbook of industrial temperature and humidity measurement and control (BR) ... 329

DIESEL ENGINES
German State Railway Diesel-electric car 157
Maybach, the 410-hp (sketch) ... 192

DOHERTY, R. E.
Educational preparation for creative technical engineering leadership ... 90

DONALD, W. J.
Industrial engineering and management (BR) ... 589
Industrial management in the machine age (BR) ... 590

DOOLITTLE, HAROLD L.
Nominated as A.S.M.E. officer (biog.) ... 524

DOTY, PAUL
Nominated as A.S.M.E. officer (biog.) ... 523

DRAFT
Chimney, analysis of equation for ... 32

DRAPER, C. S., AND TAYLOR, E. S.
New high-speed engine indicator ... 169

DRESDEN, D.
Cutting overhead at reduced outputs (C). 61

DUST
Control in industry ... 621
Count in certain dusty trades (table) ... 233
Effects in industry ... 163
Extraction plant, comparison of cost between various types of (table) ... 385
Greenburg-Smith impinger apparatus for sampling (sketch) ... 232
Industrial, controlling hazards of ... 80
Quartz, percentage in various industries (table) ... 229
Sampling and analysis in industry ... 229
Sedgwick-Rafter cell and Whipple disk eye-piece for counting particles (sketch) 232
Talc, particle-size distribution of (chart). 230

E

EATON, AMOS
Portrait ... 25

EATON, GEORGE M.
How do you think? ... 279
How do you think? (C) ... 708
Practical plasticity problems ... 557
Practical plasticity problems (C) ... 649
Unemployment and patent monopoly (C) 387

ECONOMETRICS
Papers and discussions at Chicago meeting ... 486

ECONOMICS

ECONOMICS (*continued*)
Engineer's view of investment banking reforms....275, 352
Five-day week (C)....199
Fluctuations of machine-tool orders since 1919 compared with industrial production (chart)....10
Individualism amuck....42
Industrial dust, effect in industry of....163
Industrial equipment policies, fundamentals of....411
Industry and government....618
Machine, present problems of....13
Machinery industry and the business cycle....10
Machinery industry index numbers, 1929–1932....10
Management essentials for recovery (C)....263
Manufacturing industries, charts in....493
Mass production, social effects of....83
Money saved and invested annually (chart)....30
National Industrial Recovery Act (Ed)....438
Net earnings of machinery manufacturers after depreciation and taxes (table)....12
New construction can restore prosperity....111
Operating expenses, control of....137
Plan now for the future (Ed)....40
Plans for industrial stabilization (Ed)....306
Problem of purchasing power....595
Problem of purchasing power (Ed)....629
Problems of public enterprise....147
Public services of engineers (Ed)....503
Public works and recovery (C)....65, 198
Public works as a stabilizer....156
Purchasing power, adequate (C)....199
Rehabilitation (Ed)....40
Rhythmic variations in industry....659
Savings, disposing of....30
Social trends, recent (Ed)....118
Social trends, with reference to their implications for engineers....234
Standardized machine speeds, desirability of....246
Unemployment reserves, an analysis of their effects on stabilization....422
Unemployment reserves (Ed)....438
Urbanization, economic and social effects of....27
Wages and prices in steel mills (Ed)....180
What's happening to the corporation?....545
Why forced-construction program of 1930 failed....112

ECONOMIZERS
Simmon, rotary tests of....126

EDITORIALS....40, 118, 180, 250, 306, 374, 438, 502, 574, 628, 692, 760

EDUCATION
See also Vocational Training
Analysis of a problem (table)....279
Century of Progress Exposition....478
Continuing process of (Ed)....41
Engineering colleges, product of (C)....64
How do you think?....279
Liberal, technical curricula and....23
Occidental, early developments in....23
Procedure for developing creative technical engineering leaders....90
Research workers, university training of....167
Situation of the last decade....91
Technical, present and proposed procedure in....93

ELECTRICITY
When feasible to use in heating buildings....121

ELECTRONICS
Applications and phenomena in metals....237, 290, 358
Solid state of matter, problem of....427

ELEMENTS
Possibilities of bringing about transmutations of....78

ENGINEERING
Approach to government....467
Benefit from organization (Ed)....307
Colleges' part in industrial leadership (Ed)....629
Contribution to progress....475
Definition of (Ed)....575
Early, monuments of (BR)....67
Economic science of the future....471
Human, problems in (BR)....141

Pulverized coal and colloidal fuel....379

FLANDERS, RALPH E.
Problem of purchasing power....595
Report as chairman to American Engineering Council on causes of business instability....224, 295

FLEMING, A. P. M.
Internationalization of scientific knowledge as a factor in world economic recovery....491

FLIGHT
Notable transatlantic flights....109
Transatlantic, relation of weather to....109

FLOW OF FLUIDS
Committee on Pipe Lines begins work....528
In closed conduits....497
Investigation of boundary layer between turbulent and streamline flow....120
Turbulence, study of....252

FLOW OF STEAM
Condensation in tubes....751

FLOW OF WATER
Through a right-angled triangular notch with incomplete contractions....122

FORMULAS
Economic lot sizes in manufacturing....608

FOUNDRY
Die-casting iron and steel....576
Manufacture of centrifugally cast piston rings....576
Reclaiming leaky castings....184
Rotary melting furnaces for....45
Vertical centrifugal casting of non-ferrous alloys....695
Witton high-frequency electric melting furnace....254

FRANZ, FREDERICK
Eight as a basis for our system of numbers (C)....64

FREEMAN, JOHN RIPLEY
John Fritz Medal awarded to....782

FRICTION
Surface quality....569

FRY, A.
Nitrogen in arc welds (C)....65

FRY, THORNTON C.
Mathematical theory of rational inference....488

FUELS
See also Coal; Firing; Natural Gas; Pulverized Coal
A century of progress in technology (C)....645
Alcohol for power....378
Alcohol-gasoline mixtures....285
Bituminous coal tar as fuel....505
Briquet waste, utilization of....379
Burner for creosote oil....633
Carbonizing coal in fuel oil....443
Coal dust, unground....378
Colloidal-fuel research....311
Combustion of pulverized coal....764
Conditions a century ago....339
Elimination of fusain from coal....763
Fuel oils, calorific value and density of....577
Gasoline-alcohol blends....311
Greater efficiency indicated (Ed)....760
Hand firing (drawing)....340
Hydrogen for internal-combustion engines....377
Making oil from coal....763
Oil-coal fuel....695
Pulverized coal and colloidal fuel....379
Smoke abatement, historical data on....347
Sulphur recovery from flue gases....696

FURNACES
Witton electric high-frequency melting type....254
Firing, use of low-volatile duff in....255

G

GARRISON, R. M.
Credit control vs. overinvestment (C)....323

GAS
Fermi-Dirac statistical theory of degeneration....237, 290, 358
Pressure tanks for storage....162

GAS ENGINEERING
Improved Tully gasification plant....766

GAS TURBINES
Thermodynamics of aggregate for....52

GASOLINE
Flame-proof....46

GEARS
